JUST THINKING

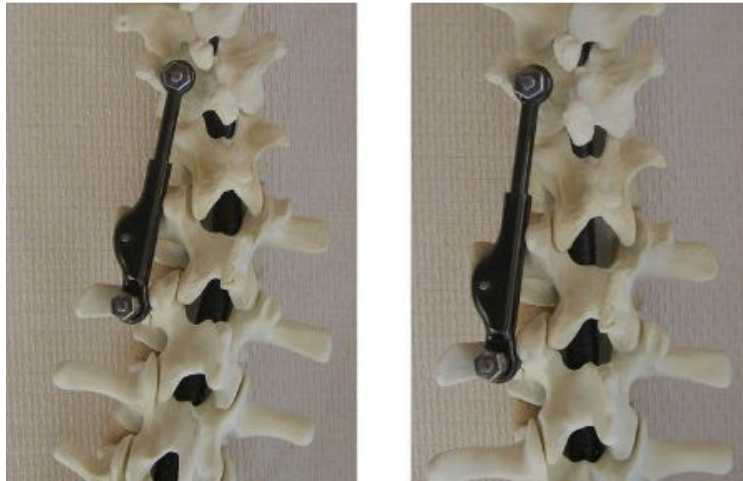

Number 79

<http://israel21c.org/health/the-top-12-most-amazing-israeli-medical-advances/>

They are:

1. [ApiFix](#) system to correct severe curvature of the spine (scoliosis) minimizes risks, scar size, complications, recovery time and cost. The miniature ratchet mechanism has successfully been implanted in 15 patients so far.

2.

2. **Argo Medical Technologies'** [Rewalk](#) robotic exoskeleton from was featured on the hit TV show "[Glee](#)" and enabled [paraplegic runners in London](#) and Tel Aviv to complete marathons. The ReWalk Rehabilitation model currently is used by patients in rehab centers from New York to Dusseldorf.

3. **Gamida Cell** is developing stem-cell therapy products to treat blood cancers, solid tumors, non-malignant blood diseases such as sickle-cell anemia, autoimmune diseases and genetic metabolic diseases.

4. [GI View Aer-O-Scope](#) disposable colorectal cancer screening device, now in US trials, will make lifesaving colonoscopy screenings cheaper, safer and more accessible worldwide. The self-navigating, flexible Aer-O-Scope removes the risk of perforating the colon, provides superior imaging and can be used by a trained nurse or technician so a gastroenterologist does not have to be present.

5. **IceCure Medical's** [IceSense3](#) has been used by US doctors since 2011 to remove benign breast lumps in a 10-minute ultrasound-guided procedure that penetrates the tumor and engulfs it with ice. The system is being clinically tested over the next few years against small malignant breast tumors as well. The procedure is done in a doctor's office, clinic or breast center, and the patient can get up and leave afterward with no recovery period or post-care.

6. InSightec's [ExAblate OR](#) uses MRI-guided focused ultrasound to destroy tumors and uterine fibroid cysts without surgery.

7. IonMed's [BioWeld1](#) bonds surgical incisions using cold plasma — instead of painful stitches, staples or glue – within minutes, sealing and disinfecting the wound with minimal scarring and recovery time.

8. Nano Retina's [Bio-Retina](#), a tiny implantable device inserted into the retina in a 30-minute procedure, turns into an artificial retina that melds to the neurons in the eye. Activated by special eyeglasses, the device transforms natural light into an electrical impulse that stimulates neurons to send images to the brain.

9. NanoPass Technologies' [MicronJet](#) is a unique, FDA-approved single-use needle for painless delivery of vaccines into the skin using semiconductor technology. The product has been proven to generate superior immune response with less vaccine, because it does not go past the skin level.

10. OrSense's NBM-200 non-invasive monitor is relied upon by blood donation centers in 40 countries for continuous and spot measuring of potential donors' hemoglobin level (to check for anemia) and other blood parameters.

11. Surpass Medical's NeuroEndoGraft flow diverters redirect blood flow from a brain aneurysm (a bulge in a weak artery wall), so that a stable clot can form and the potentially fatal aneurysm no longer is in danger of rupturing.

12. VitalGo Systems' Total Lift bed is the world's only hospital-grade bed that can elevate a patient from a lying to a fully standing position — and all points in between — for treatment and transfer with no lifting required of the caregiver.

JT: The irony is that these 12 medical advances/inventions will surely help to save Muslims' lives also, while Muslims are commanded by Muhammad and the Koran to kill Jews. Any Muslim will tell you that only peaceful Islam creates an atmosphere where such advances/discoveries can be made, or that Allah wanted the Jews to make these inventions so that Muslim lives could be saved and be free to kill Jews. Muslims might also tell you and force you to believe that Muslims have developed/invented the above. Under ObamaCare these inventions will most likely be unavailable.

Source: <http://media-cache-ec0.pinimg.com/736x/e1/bf/13/e1bf131ce644319e9637a4abe3a058fc.jpg>

JT: Yup, That's how ObamaCare socialism is. It doesn't function. It will eventually dysfunction itself into oblivion.

Jeryl Bier of Weekly Standard.com reports, "Buried in the source code of Healthcare.gov is this sentence that could prove embarrassing: 'You have no reasonable expectation of privacy regarding any communication or data transiting or stored on this information system.' Though not visible to users and obviously not intended as part of the terms and conditions, the language is nevertheless a part of the underlying code for the 'Terms & Conditions' page on the site. After creating an account on Healthcare.gov, users are asked to click an 'I accept' button under some routine Terms & Conditions prohibiting unauthorized attempts to upload information or change the website. Once users click the button, they may proceed to shop for insurance and enter detailed personal information. However, when the Terms & Conditions page is visible, the hidden sentence mentioned above along with several others can be seen by using a web browser's 'View Source' feature. ...The full portion of the code which does not appear on the visible page displayed for users reads as follows: 'You have no reasonable expectation of privacy regarding any communication or data transiting or stored on this information system. At any time, and for any lawful Government purpose, the government may monitor, intercept, and search and seize any communication or data transiting or stored on this information system. Any communication or data transiting or stored on this information system may be disclosed or used for any lawful Government purpose.' ...The phrase 'no reasonable expectation of privacy' is actually a stock phrase used in the terms and conditions of many government websites and information systems, but those who are entering personal, medical and financial information at Healthcare.gov may not find that fact reassuring. An email sent on Thursday, October 10, requesting comment from Department of Health and Human Services, the agency responsible for the website, has not yet been returned."

http://www.weeklystandard.com/blogs/obamacare-website-source-code-no-reasonable-expectation-privacy_762489.html)

JT: I'm not surprised. Methinks this is reason enough not to sign up for ObamaCare. As a matter of fact, not signing up for ObamaCare would be a good method to shoot it down. Nobody should sign up for ObamaCare. I herewith call for a nationwide boycott of ObamaCare.

"Michelle and I extend our best wishes for a joyous Eid al-Adha to Muslims around the world and congratulate those performing the Hajj this year. As our Muslim neighbors and friends gather for Eid celebrations, Muslim Americans are among the more than three million pilgrims joining one of the world's largest and most diverse gatherings, which serves as a reminder of the shared roots of the world's Abrahamic faiths. To commemorate Eid al-Adha, Muslims around the world are joining other faith communities in offering their assistance to those suffering from hunger, disease, and conflict. Their service is a powerful example of the positive role that faith can play in motivating communities to work together to address shared challenges. On behalf of the American people, we extend our warmest greetings during this Hajj season. Eid Mubarak and Hajj Mabrouh."(<http://photos.state.gov/libraries/france/5/pdf/eid2013.pdf>)

JT: I'm all for it. The pilgrims are doing exactly what lunatics do: pay devotion to the moon god Allah. After their pilgrimage they will return to their home countries and kill non-believers for Allah. Allah hop! Allah hoop! Allah hop!!

WWLTV.com reports that “local insurance companies [are] skeptical of Affordable Care Act navigators.” Gabriel P. Janusa, President of Demand Insurance & Benefits, LLC in Metairie, Louisiana, states, “These navigators, number one, are not licensed insurance agents. Number two, they don’t carry errors and omissions insurance. Number three, the navigators or organizations that receive the grants, are not performing background checks on the individuals that are going to have access to your personal, identifiable information.” Patrick Taylor, President of Benefit Planning Group in Metairie, says, “They (the government officials) decided not to force them (navigators) to be licensed in the State of Louisiana through the Department of Insurance, because some of those people are felons. I can’t be a felon and give you advice on their health care.” <http://www.wwltv.com/news/local/Local-insurance-companies-skeptical-of-Affordable-Care-Act-navigators-228083881.html>.

JT: I don't understand why the felons can't give advice. There is a felon in the Oval Office and he gives advice in the form of lies every day and no one asks him for it!

JT: I know that it's very nerve wracking to listen to Obama the Destroyer speak and attempt to read between the lines and understand the lies that come out of his upside (or downside?). Nevertheless, here is some more bullshit from Barack Hussein Obama, aka The Destroyer. The comments in parentheses are not crap. They are the truth. They come from Don Fredrick of *The Obama Timeline*.

Obama delivers an address about the temporarily resolved spending and debt ceiling crisis, saying, “So let’s work together to make government work better, instead of treating it like an enemy or purposely making it work worse. That’s not what the founders of this nation envisioned when they gave us the gift of self-government. [If] You don’t like a particular policy or a particular president? Then argue for your position. Go out there and win an election. Push to change it. But don’t break it. Don’t break what our predecessors spent over two centuries building. That’s not being faithful to [sic; to] what this country’s about.” (<http://cnsnews.com/news/article/susan-jones/obama-founding-fathers-would-not-have-approved>)

Obama says, “These last few weeks have inflicted completely unnecessary damage on our economy. We don’t know yet the full scope of the damage, but every analyst out there believes it’s slowed our growth. ...We know that consumers have cut back on spending and that half of all CEOs say that the shutdown and the threat of shutdown set back their plans to hire over the next six months.” (Obama does not provide proof of his absurd claim. *The Obama Timeline* has not been unable to find evidence that “half of all CEOs” have cut back hiring plans because of the shutdown shenanigans. Obama is here getting out in front of the problems that will be caused by ObamaCare, blaming them on the Republicans.) “We know that just the threat of default—of America not paying all the bills that we owe, on time—increased our

borrowing costs, which adds to our deficit.” (Interest costs have not increased because of the shutdown negotiations; they have been increasing for more than a year.) Obama claims it is “no surprise” that Americans “are completely fed up with Washington”—as if he has absolutely nothing to do with Washington. (<http://cnsnews.com/news/article/susan-jones/obama-warnsshutdown-has-slowed-our-growth>)

He continues, “At a moment when our economic recovery demands more jobs, more momentum, we’ve got yet another self-inflicted crisis that set our economy back. And for what? There was no economic rationale for all of this.” (The economic rationale was to stop ObamaCare—which has been and will be a jobs killer.) Obama brags that he cut the deficit in half (neglecting to mention that he first tripled it, and fought the spending cuts imposed by the sequestration that helped reduce the deficit.) “We hear some members who pushed for the shutdown say they were doing it to save the American economy. But nothing has done more to undermine our economy these past three years than the kind of tactics that create these manufactured crises. ...[P]robably nothing has done more damage to America’s credibility in the world—our standing with other countries—than the spectacle that we’ve seen these past several weeks.” (Obama has apparently forgotten about the terrorist attack in Benghazi, his shabby treatment of Israel, his abandonment of Egyptian ally Hosni Mubarak, his humiliating “red line” comment that allowed Russian President Vladimir Putin to play him like a fool, and various other embarrassments.) (<http://cnsnews.com/news/article/susan-jones/obama-warnsshutdown-has-slowed-our-growth>)

In a stunning demonstration of shamelessness and audacity, Obama lectures, “Those of us who have the privilege to serve this country have an obligation to do our job as best we can. We come from different parties, but we are Americans first. And that’s why disagreement cannot mean dysfunction. It can’t degenerate into hatred. We can debate those differences vigorously, passionately, in good faith. There’s no good reason why we can’t govern responsibly, despite our differences. When we disagree, we don’t have to suggest that the other side doesn’t love this country or believe in free enterprise, or all the other rhetoric that seems to get worse every single year.” (The “let’s be civil” Obama makes this statement after he and his Democrat comrades spent weeks calling Republicans terrorists, hostage-takers, extortionists, arsonists, extremists, and evil partisans who would deny health care to the sick and food to starving children.) (<http://dailycaller.com/2013/10/17/president-two-face-obama-sings-a-new-tune-after-government-shutdown-video/>)

Obama calls on Congress to pass immigration reform (amnesty) legislation: “We should finish the job of fixing our broken immigration system. In fact, the Senate has already passed a bill with strong bipartisan support that would make the biggest commitment to border security in our history, would modernize our legal immigration system, make sure everyone plays by the same rules, make sure that folks who came here illegally have to pay a fine, pay back taxes, meet their responsibilities. That bill has already passed the Senate. It’s sitting there waiting for the House to pass it. Now, if the House has ideas on how to improve the Senate bill, let’s hear them. Let’s start the negotiations. But let’s not leave this problem to keep festering for another year, or two years, or three years. This can and should get done by the end of this year.” (CNSNews.com notes, “The bill that the Senate passed not only created

a path to citizenship for illegal aliens, but included language specifically stipulating that illegal aliens could not be denied conversion to legal resident status and put on the citizenship path even if they had committed certain crimes on multiple occasions. 'An alien convicted of 3 or more offenses for driving under the influence [DUI] or driving while intoxicated on separate dates is inadmissible,' says the Senate bill. This means that an alien who has been convicted of 2 DUIs is admissible. It also means an alien who gets 2 DUIs on one day—and then gets a third on another day—is still admissible because he did not get 3 or more DUIs 'on separate dates.' Language on page 777 of the bill appears—on its face—to legitimize counterfeiting and selling up to 2 U.S. passports." The legislation includes penalties for forging three or more passports; the Senate Democrats apparently believe forging two is permissible.) (<http://cnsnews.com/news/article/terence-p-jeffrey/obama-house-now-lets-negotiate-citizenship-illegals>)

http://www.youtube.com/watch?feature=player_embedded&v=JHjm1CPeenw

JT: Therefore, women should ride camels.

Source: via <http://righttruth.typepad.com/.a/6a00d83451c49a69e2019b001e1bd1970b-500wi>

JT: Yup! What difference does it make?

<http://www.archives.gov/federal-register/executive-orders/obama-subjects.html>

JT: Here's a subject index of executive orders signed by Obama

Concerning Kathleen Sebelius' appearing before Congress. Congressman Leonard Lance (R-NJ) tells Fox News Channel's Greta Van Susteren, "We could subpoena her, but usually, the way the system works is that the cabinet secretaries come before the committees of jurisdiction. Obviously, we have the ability to subpoena a cabinet officer. But I would hope that the secretary would come before the committee. Chairman Upton is a very fair person, a very fine chairman. And after all, the secretary has time for Jon Stewart. I think she should have time for those of us who serve in Congress on these critical questions of this dismal failure so far in the rollout." (<http://video.foxnews.com/v/2752767688001/rep-lance-sebelius-refuses-to-testify-on-obamacare-rollout/>)

JT: Now that's an extremely politically correct commentary. Therefore Sibelius won't comply. Subpoena her, arrest her, and have her escorted to Congress.

Caroline Kennedy Schlossberg is confirmed by the Senate to become the next U.S. ambassador to Japan. (<http://abcnews.go.com/Politics/wireStory/caroline-kennedy-confirmed-ambassador-japan-20593835>)

JT: Rumor has it that she could not take her oath of office because she cannot speak a single, simple sentence in English without ers, uhs, ahs, stuttering etc. She signed the oath of office with her signature ... X!

JT: Methinks this is Moosechelle who was looking for a place to park before going for some XXXLLL hamburgers!

Pelosi: Watching Reid Made Me Wet Myself

WASHINGTON (BHN) - House Minority Leader Nancy Pelosi gushed over Senate Majority Leader Harry Reid on Wednesday afternoon in an interview with MSNBC's Andrea Mitchell.

"He was superb, at times making perfect sense, hardly farting at all, and wearing just a beautiful suit," said the frantically-blinking Pelosi. "I realized later his performance had made me wet myself - he was that good."

Reactions on the other side of aisle were somewhat similar, as several Republicans said the Senate Majority Leader's performance made them "want to puke."

Source: <http://www.bighairynews.com/2013/10/pelosi-watching-reid-made-me-wet-myself.html>.

JT: Rumor says that she almost drowned!

DMANISI, Georgia (BHN) — Scientists say a 1.8-million-year-old skull discovered under a medieval Georgian village may be the missing evidence Darwinian evolutionists have been seeking.

"This find is strong and compelling evidence of a link between primates and humans," said one prominent scientist.

The fossil is the most complete pre-human skull uncovered, and gave researchers the opportunity to rebuild it using contemporary forensic methods. The finished product gives insight into what our ancient ancestors may have looked like (below).

Source: <http://www.bighairynews.com/2013/10/discovered-skull-called-missing-link.html>

JT: I think the story is a fake. Nobody can look that ugly!

JT: This is the new logo for the collective lamestream media.

<http://topconservativenews.com/2013/10/muslim-immigrants-raped-over-300-swedish-children-in-seven-months-of-2013/>

"In the first seven months of 2013, over 1,000 Swedish women reported being raped by Muslim immigrants. Over 300 of those were under the age of 15. The number of rapes is up 16% compared to 2012 numbers."

JT: Why get upset? The rapists were only doing what Mohammed did and really, weren't they introducing the young Swedish women and still-children females to the paradise that is Islam? Rumor says that some of the rapists were crying *Allah, Allah, Allah, my moon god! Please shine on me when I do your and Mohammed's will tonight!*

For interesting reports about Muslims go to this list which is practically infinite.
<http://www.reddit.com/user/Ulfberht1979>
