## Just Thinking

JT: What are they doing? I think it's possible that they are showing what they think of those POLDS in back of them who go out of their way to kiss Islam's derrieres.

JT: Tasting some of the wines will make your eyes squint.

JT: The latest email that some persons have received from the DemocrAT Party requests that the recipient place his/her name on a list to protest the GOP's extreme attacks on President Obama.

I have replied that "I'm adding my name to the following:

1. Impeach Obama on charges of high treason against the United States of America and the Constitution for the United States of America
2. Find him guilty of the charges.
3. Sentence Obama accordingly."

\*\*\*

The following image is the button that Valerie Jarrett presses when she wants Obama to come to her office:

JT: Spontaneous thought: The lamestream media is always trying to explain something it knows nothing about.

\*\*\*

In September 2010, Barack Hussein Obama said in a speech at the United Nations, "The future must not belong to those who slander the prophet of Islam."

JT: That statement is more than problematic. Read the peaceful and tolerant Koran (!?!), Muhammad's peaceful and tolerant statements (!?!), Muhammad's peaceful and tolerant Allah voice (!?!), and you will realize that peaceful and tolerant (!?!), Muhammad is insulting himself! Ergo: the future does not belong to Muhammad!

Lou Dobbs claims the government lies to us at <http://www.foxbusiness.com/on-air/lou-dobbs-tonight/index.html#/v/4216465639001>.

JT: Here are some examples of English usage from <http://themetapicture.com/> that progressives will never understand:

1. Son: "Hello Mom! Don't freak out, but I'm in the hospital."  
Mom: "Jeremy, you have been a doctor for eight years now. Please stop starting every phone conversation we have with that."
2. "I changed my iPOD's name to Titanic and it's still syncing"

3. "The reason there is no gambling in Africa is because there are too many cheetahs."
4. "What's the difference between a snowman and a snow woman?"  
(Snow balls!)
5. "How do you know if *Nancy Pelosi* is alive or dead?"  
(Poke her face!)

JT: I know, but talk to Monika and your mother and they'll tell you I'll knock anything!

\*\*\*

JT: Another DNC email is underway requesting that the recipient sign the DNC Mother's Day card for Michelle Obama.

Question: Does a Mx. qualify as a mother?

\*\*\*

JT: The perfect example of Islamic peacefulness and tolerance is Islamic Cleric Anjem Choudary. Google the name! He recently called Pamela Geller a "'Khanzeer' (Jewish pig — the same term Muhammad used before he beheaded thousands of Jews)."

(<http://pamelageller.com/2015/05/video-pamela-geller-debates-anjem-choudary-on-hannity.html/>)

I don't think Pamela Geller is upset about being referred to by this term. She realizes who is saying it. Believe me! What Anjem Choudary believes in will convince anyone that he is definitely not a cathedral of intelligence!

At <http://www.missionislam.com/quran/whowrote.htm> we read that the

"Quran is written in pure, rich, and poetic Arabic, which was not known to anyone other than the above mentioned sources (Arabs, Muhammad, Allah), at that time. The Arabic language was at its peak in expression, richness, vocabulary, artistic, and poetic value during the time the Quran was being revealed. Anyone speaking the classical Arabic ( the Arabic of Quran (sic: the Quran) at the time it was revealed) would argue that a non-Arab entity couldn't possibly have written such an extensive and brilliant piece of literature in the Arabic language. Quran (sic: The Quran) could only have been written by an Arabic speaking entity. An entity, who's (sic: whose) knowledge, style, vocabulary, grammar, and way of expression was so powerful that it impacted the entire Arabian peninsula, the east, the west, and continues to impact people all over the globe today!

At no other time in the history of Arabic language had the language ever achieved its highest potential than the time of Arabia during the 6th (sic: 7th) Century, the time when Quran (sic: the Quran) was being revealed. The language reached its peak in richness, artistic value, and poetry, during that time. With the Arabic language at its peak, and the best of Arabic writers, poets present in Arabia, it is impossible that a non-Arabic speaking entity would write a book like Quran (sic: the Quran) and have such a dynamite impact on the Arabs!"

Anjem Choudary! Arabic is very vivid language. The generations after Muhammad and followers of Muhammad in these generations surely have changed a language of, richness, artistic value, and poetry into despicable subculture expletives. Here are

some peaceful and tolerant Arabic statements definitely used by peaceful and tolerant Muslims. (From <http://www.myinsults.com/comebacks/arabic-insults>.)

JT: Anjem Choudary is a target in his own right. His beliefs are insulting behavior worthy of being targeted, frozen, personalized, and polarized. With Choudary and Muhammad we realize what Arabic language capabilities are available to peaceful and tolerant Muslims who are to emulate peaceful and tolerant Muhammad.

JT: The vivid capabilities of many languages are mirrored in religious slurs. [http://en.wikipedia.org/wiki/List\\_of\\_religious\\_slurs](http://en.wikipedia.org/wiki/List_of_religious_slurs). Islam itself is a slur on humankind.

**Los Angeles | Yoko Ono shocked reporters yesterday when she responded to a question concerning the presidential run of Hillary Clinton and the possibility that she could become the first woman President of the United States in American history.**

The artist and widow of John Lennon, who is in Los Angeles to present a collection of cups and saucers she is exhibiting at the Museum of Modern Art, totally took reporters by surprise by admitting she had not only met the former First Lady at various times during a series of protests against the Vietnam War in New York in the 1970s but also knew her “intimately”.

The celebrity admitted laughingly to having “a fling” with her at the time and acknowledged her election “would be a great advancement for LGBT and Women rights in America” she added.

Hillary Clinton has been hit by a series of allegations of being a lesbian in her career which could ruin her bid for the presidency, believe some experts

Yoko Ono when asked about her thoughts about Hillary’s run for the presidency completely took reporters by surprise.

**“We met many times during the New York Vietnam War protests in the 1970s, and became very intimate. We shared many of the same values about sexual equality, fighting against the authoritarian, patriarchal, male-dominated society we were raised in”** she explained.

**“We had a brief romantic fling when I lived with John in Manhattan and Hillary was studying at Yale, but eventually we lost touch. I am amazed how things are going well for her and wish her the best for her campaign”** she told reporters during the press conference.

Experts believe the statement could affect the presidential candidates bid for the presidency but previous allegations of Hillary Clinton’s lesbian past have not seemed to play against the front runner for the 2016 Democratic presidential race yet.

A headline in the Wall Street Journal reads

# Does Artificial Intelligence Pose a Threat?

(<http://www.wsj.com/articles/does-artificial-intelligence-pose-a-threat-1431109025>)

JT: Pondering the question as it is, I would say **YES! ARTIFICIAL INTELLIGENCE DOES POSE A THREAT (TO AMERICA).**

The proof is obvious. In 2009 Barack Hussein Obama became the illegal and artificial occupant of the Oval Office. Accompanying him to the White House were Michelle and a regime of suckering up followers to include Joe Biden, Valerie Jarrett, John Brennan, Hillary Clinton, Samantha Power, Susan Rice, presently John Kerry, and so on. Readers know what lacking of true intelligence these dullards possess. They all pose a threat to America. Ergo: Artificial intelligence is a threat to America.
