They tried to topple the bus I was in. They threw feces at us, banging on the door for the driver to open it, spat on the glass. ...We spent three hours on the border, but failed to get through. The whole group was later transported back to Italy by the police. The bus is butchered, feces smeared, scratched, broken windows. And this is supposed to be an idea for the demographics? The following article by the American Constitutional Scholar Andy Joppa discusses the current migration to the West of Islam refugees seeking freedom. It is presented in its entirety.

Council for Constitutional Principles

Refugees; Weapons of Mass Destruction by Andy Joppa

First, I must offer the obligatory, Western, guilt laden, apologetic. That is, it is obviously horrifying when anyone is displaced or damaged by war, chaos and violence. Refugees that are created within this process should be given assistance until that danger either passes or is eliminated. Having given you that obvious starting point for our conversation let's move beyond that by adding reality to the compassion.

Being a refugee does not confer on the refugee a moral status. Refugees are no better nor worse than any other people. They do not have any inherently positive, nor negative, attributes. They are not more nor less violent than those that have created their refugee status. In fact, many refugees are merely the losing side in a conflict; a conflict in which they have been, directly or indirectly, a participant. They maintain political, cultural and/or religious norms that move with them. These norms, when transplanted, are often not yielded within the environment that has provided them shelter and can take root as a metastasizing of the original disease.

This generic thought is even more specifically true as we watch the hundreds of thousands (probably millions) of mostly Islamic refugees beating down the gates of Europe. The German people, still trying to convince the world that they are not Nazis, have welcomed these refugees with reception groups and festivals. They are expecting close to a million more "new Germans" in the coming year. It was dubious that Germany or Europe could have survived before these hordes crashed their borders. It is now guaranteed if this continues that they will be destroyed. Destruction will not be a physical destruction. It will be, in all likelihood, a displacement. If you remember the movie *The Invasion of the Body Snatchers*, everything will look the same but it will actually be totally changed.

This is no longer just a refugee crisis. This is a hijrah. Hijrah is the Islamic doctrine of migration, which is a form of stealth jihad. To emigrate in the cause of Allah - that is, to move to a new land in order to bring Islam there, is considered in Islam to be a highly meritorious act. The following Quranic text can be cited, "And whoever emigrates for the cause of Allah will find on the earth many locations and abundance...And whoever leaves his home as an emigrant to Allah and His Messenger and then death overtakes him, his reward has already become incumbent upon Allah. And Allah is ever Forgiving and Merciful" (Quran 4:100). Clare Lopez, a senior Middle East analyst for the Center for Security Policy offered, "Today, it is the nation-state system and any concept of national sovereignty that is under concerted attack by the forces of the global jihad movement...Jihad is not only a violent phenomenon but can be pursued by many other means, including hijra."

Islam has long dreamed of conquering Europe. Charles Martel stopped their advance in 733 A.D. at the Battle of Tours. Again, in 1683, Islamic invasion was thwarted at the Gates of Vienna. This occurred on September 11. That this month and day have come back to haunt us is not coincidental. This dream within Islam has never ended...nor could it. The rise of ISIS and its intent of creating a new Caliphate has reenergized the effort to bring Europe under Islamic control. Using refugees, either by manipulation or through their cooperative involvement, is a tactic that ISIS could, and is, utilizing.

Modern Islamic terrorists groups have long positioned themselves within civilian populations making their positions nearly invulnerable. They used the enemy's moral values against them. A Syrian operative claimed more than 4,000 trained ISIS gunmen have already been smuggled into Europe – hidden among refugees. They are using Europe's moral values against them. Moral values cannot be applied in a manner that allows for the destruction of those moral values.

If the death of Europe does not occur by hijra (which I believe it will) then the violence of ISIS will surely fulfill that persistent Islamic dream. The mass entrance of Islamic refugees into Europe must not be allowed to continue. Five of the wealthiest Muslim countries have taken no refugees in at all, arguing that doing so would open them up to the risk of terrorism. Although the oil rich countries have handed over aid money, Britain has donated more than Saudi Arabia, the United Arab Emirates and Qatar combined. This is an Islamic problem. It must have Islamic solutions. It must not continue to be Europe's burden.

Whether this is a tactic of ISIS within a fulfillment of hijra or merely the incidental benefit of the chaos of a culture with no essential stability, hardly matters at all; it must be stopped. If Europe continues to open its doors to these refugees then Islamic jihadists will continue to create them. To end the refugee "crisis" put the burden on the Islamic nations...the "crisis" will end very quickly. This is the only moral solution to the problem.

JT: In an essay posted at *The Complete Obama Timeline*, there is more supporting and explanatory, documented evidence of the dangers of Hijra(h).

<http://thecompleteobamatimeline.com/uploads/3/5/7/4/3574872/deadlyconceptsofthecancerislam.pdf>)

Hijra(h) This concept is the main activity in undermining a non-Islamic culture. Hijra is Muslim immigration so that Muslims and Islam can peacefully populate and gain political power in a Kaffir country. Hirja is most often used in conjunction with Muruna. Hijra comes from Hidschra (Hedschra), which is the term that describes the immigration of Muhammad from Mecca to Medina and his arrival in Qubā (12 Rabī' *al-awwal* = 24 September 622). This is the beginning of the Islamic calendar. It is Islam's day one in Islam's year one. It was in Medina that Muhammad began his terror-forged Islamic state and the terror conquest of the Arabian Peninsula.

The theory in Islamic jurisprudence is that Hijra is a responsibility for all Muslims to infiltrate the House of War (non-Muslim lands) that is always considered to be hostile. Muslims immigrating to a non-Islamic country are to take Muhammad's example of immigration as a model to be emulated. The emulating can be of two kinds:

- 1) undermine the host country in order to establish an Islamic state;
- 2) leave the host country because it is an enemy of Islam, regroup forces and strength and continue the infiltration at a later date.

Once again we meet Islam's conditioned behavior: *when weak, preach peace; when strong, wage war*; and alternate until Islam's enemy is subdued.

Hijra is extremely important when Muslims immigrate to a European country, or Canada and the United States of America in particular. Mosques will be built and Islamic schools will become established. Even low-profile Sharia courts will come into existence.¹

Hijra demands that the host country meet Muslim demands. This is accomplished in a sly and very subtle manner. Such minor, non-discriminatory demands will include

- a low-key demand for special, public prayer rooms,
- a low-key demand for female head and face coverings,
- halal food,
- high-decibel, five-times-daily calls to prayer,
- neutralizing of official descriptive language about Islamists and Jihad,
- official swearings-in on Korans in place of customary Bibles,
- making Islamic holidays legal,

¹ For the implementation of Sharia law in Europe see <http://www.billionbibles.org/sharia/sharia-europe.html> and <http://www.billionbibles.org/sharia/uk-sharia-law.html>. For the expansion of Sharia law in Canada see <http://www.billionbibles.org/sharia/canada-sharia-law.html>. For the implementation of Sharia law in the United States of America see <http://www.billionbibles.org/sharia/america-sharia-law.html>.

- removal of Christian symbols because Muslims feel insulted by them,
- removal of representations of pigs from the public sphere,
- revision of so-called offensive content in movies and television programs,
- segregated male-female gym and swimming pool hours,
- Sharia-compliant financial transactions,
- the censorship of Christmas activities,
- the construction of footbaths at universities,
- the elimination of Christian holidays,
- the elimination of Easter,
- the expunging of imagined depictions of Arabic characters that connote Allah,
- the expunging of offensive likenesses of Mohammed,
- workplace dispensations for handling pork products.

All of these activities will be undertaken with the argument that the host country must respect Muslim religious beliefs. Islamic communities will brainwash the people in the respective communities of the host country into believing that these are only minor activities that the host country and/or community can undertake to make Muslims feel at home. After all, the hosts are welcoming a new addition to a multi-cultural community. It is also a great opportunity for the hosts to gloat over their own tolerance!

In the February 2015 report of *The Complete Obama Timeline*, author and researcher Don Fredrick gives a summation of how these on-the-surface-little-meaning Islamic requests have taken place in the United States of America and their outcomes.²

"Although many people ridicule warnings about the imposition of Shari'ah law in the United States, there are more than a few examples of how things are trending in that direction. Pamela Geller notes, 'Back in July 2010, a Muslim husband raped his wife, and the judge determined that no sexual assault occurred because Islam forbids wives to refuse sex on demand from their husbands. Luckily, the appellate court overturned this decision, and a Sharia ruling by an American court was not allowed to stand—this time. But there have been over a hundred cases of Sharia jurisprudence in the US, and Jeffery Mittman of the ACLU has testified that 'all have been overturned by a higher courts, therefore there is no problem since the American constitutional system worked.' Of course, this begs the question of why should this have happened in the first place. Secondly, it is simply not true that all cases have been overturned. In fact, there are cases in CAL and MD in which trial courts were overturned by appellate courts, the latter of which turned the blind eye to the threat from shariah.'"³

² <http://www.thecompleteobamatimeline.com/uploads/3/5/7/4/3574872/february2015.pdf>.

³ <http://pamelageller.com/2015/02/montana-to-pass-historic-anti-foreign-lawlegislation.html/>

CAL is California. MD is Maryland.

"There are also ongoing initiatives to compel businesses to adopt Sharia norms. In March 2007, Target stores in Minneapolis shifted Muslim cashiers who refused to check out pork products to other jobs in the stores. The J. B. Swift meat packing plant in Greeley, Colorado in September 2008 fired Muslim workers who turned violent and walked off their jobs when denied special break periods to end the Ramadan fast at the appointed time. The Equal Employment Opportunity Commission, however, sided with the Muslim workers and forced Swift to reinstate them. Ultimately, Swift added footbaths and bidets to its plant for the Muslim workers. Cab drivers in the Minneapolis airport several years ago tried to stipulate that they wouldn't carry passengers who had alcohol with them—passengers had to conform to Sharia law or not get a cab. In November 2008, a federal judge ordered Gold'n Plump, Inc., a chicken processing plant, to pay \$365,000 to Somali Muslim workers for firing them for walking off the job to pray, and for making new hires sign a form acknowledging that they may have to handle pork on the job. And in February 2010, a group of Muslims in Colorado sued Wal-Mart, claiming that they were fired in order to provide jobs for local non-Muslims, and that they had been denied prayer breaks while on the job. Mind you, it is not necessary for a Muslim to pray at a certain time if necessity makes it impossible to do so. These actions are merely devices in which to impose Islam on non-believers. Prayer is not absolutely required on a strict schedule, and Muslim prayers are commonly 'made up' after work or school. This is true even in Muslim countries, i.e., Iran. The irony is that the ACLU would oppose a law that seeks to prevent foreign laws from undermining fundamental constitutional liberties." (In addition, it is estimated that as many as 500,000 women and girls in the United States have undergone or are at risk of the Muslim practice of female genital mutilation.)"⁴

The truth behind Hijra is that it is a 1,400 year-old concept originating with Muhammad, the Koran, and the Sunnah for Islamic expansion. From the beginning Hijra has exploited ethnic separatism in order for the Muslims to live in their own areas in the host country and not integrate. The gaining of Muslim privileges in a host country is nothing more than an undermining and subversion of the host country's culture and traditions that will eventually be replaced by Sharia and Islamic belief.

Hijra and Jihad are the two sides of the medal of Islamization.

The initial stages may include receiving permission for public calls to prayer, the establishing of Islamic schools, libraries, research centers, and the teaching of Arabic

⁴ <http://www.wnd.com/2015/02/half-million-u-s-women-mutilated-in-barbaric-practice/>, <http://www.prb.org/Publications/Reports/2015/fgmc-health-providers.aspx>, and <http://pamelageller.com/2015/02/montana-to-pass-historic-anti-foreign-lawlegislation.html/>.

accompanied by the Muslims engaging in Haram so that an eventual establishment of the Ummas can be achieved. Even the rules of the Koran may be suspended as long as it allows the spreading of Islam. The host community will be brainwashed into accepting that the construction of a mosque is nothing more than a Muslim church. A mosque is not a church. It is a building of prayer to a moon god named Allah and a hot-bed center of local Jihad, Islamic life, and activities that are mistakenly understood by non-Muslims. Sam Solomon and E. Al Maqdisi are quite explicit in their description of the mosque as being⁵

- Central to the life of a Muslim community
- A civil as well as a religious building
- A Court as well as a classroom
- A military as well as a mission base
- A place of commendations as well as a place of condemnations

The true aim is to establish a purposeful non-integrated Muslim identity to assure the Islamization of the host country/community.

Muslims will demand segregation from non-Muslims by establishing **No-Go Areas** for non-Muslims, or even a Sharia police that will make sure Muslims obey the Koran, Muhammad, and the Sunnah.

Muslim women wearing the naqab.

Source <http://www.blazingcatfur.ca/wp-content/uploads/2014/10/Niqab-group-of-women.jpg>.

A typical development is that the Muslim female dress code will begin with the wearing of the hijab in segregated areas. In more public areas the women will wear the neqab. This naturally separates Muslim women from men and from non-Muslim women. The hosts will think nothing more than that these are the requirements of Islam's religious piety. They will not recognize Hijra as Islamic infiltration tactics. This will be followed by demands for prayer times at workplaces, public schools, and universities. Indeed, there will be Jihad recruitment during Islamic Awareness Weeks in universities such as that which happened at Algonquin College in Ottawa, Ontario, Canada in March 2014.⁶

More elevation of the Muslim community that will make them separate and distinct will come with the demands disguised in the form of requests for halal food, Sharia-compliant financial transactions, and the legalization of Muslim holidays and then regulation in public calendars. One outcome recently was a school board in Connecticut honoring Eid al-Adha (the Muslim "*Festival of the sacrifice* which falls on the Muslim 10th day of Dhu al-Hijjah and lasts for three days.") and ends by beheading an animal in a sacrifice.⁷ Another outcome is the demands for a Muslim Day like that being planned by the Council on American Islamic Relations in Oklahoma City on 27 February 2015.⁸

Still another outcome is that universities will have large Muslims student bodies that will discriminate against non-Muslims, particularly Jewish students, as happened recently at the University of California at Davis, California.⁹ The hosts will understand these infiltration demands as nothing more than accommodations for a devout religious minority. Naturally, the new Muslims immigrants will be invited by the host

country and community to become volunteer community leaders and even be candidates for public office. At this point the noose around the hosts' freedom-breathing necks will have become tightened and the hosts will begin choking because of lack of free air.

Islamic organizations in schools and universities will indoctrinate students to become pro-Islam, anti-Jewish, and superficially, peaceful Jihadists. Non-Muslim professors have been bought by Zikat, the payment to present Islam-favorable courses to promote Islam.¹⁰ Saudi Prince Al-waleed bin Talal gave Harvard University and Georgetown University \$20 million dollars each for the establishment of Islamic study centers.

In an advance stage of immigration, the Islamic community will undertake all measures possible to silence opposition. In The United States of America, Canada, and Europe the terms Jihad and Jihadism are not used. The word terrorism is used. Muslims can then argue that terrorism does not exist in Islam and that terrorists have nothing to do with Islam. Of course, it doesn't exist. It is called Jihadism. Jihad and Islamofascism are not used by news organizations and politicians. In referring negatively to Muslims, the term Asian is used. Threats are made against outspoken opponents of Islamization.¹¹ Even the term Islam will be qualified with terminology like *radical Islam*, *Islamists who have nothing to do with Islam*, *peaceful Islam*, and *tolerant Islam*.

Eventually Islamic youths in the host country will begin learning the principles of Jihad. They will travel to Arab countries for training. As of this writing there are Islamic youth from host countries fighting with ISIS in Syria. They are ready to die for Allah, and the cult of Muhammad. Somali Muslim youth from Minnesota and Tennessee have gone to Somalia to fight their Jihad under the auspices of Al Shabaab, an Islamic terrorist/jihadist group linked to Al Qaeda.

Slowly but surely Sharia courts will become established as is now the case in Irving, Texas. The Center for Security Policy "found that at least 146 cases have been identified where the U.S. court system has allowed a Sharia court to judicate [sic; adjudicate]." ... "In about 20 percent of those cases the court agreed to use Sharia instead of American laws with our constitutional gaurantees [sic; guarantees] respected" The Irving, Texas Sharia court will handle civil cases beginning with divorce and business disputes and then extend their coverage of other civil law suits so that they can totally bypass the traditional legal system of Texas. The outcome will

be, as it always is, that Sharia law will eventually replace the host country legal system, in this case the law system of the United States of America.¹²

In England there are parallel systems of Sharia and English jurisprudence.¹³ The local imams pressure the local Muslims to follow Sharia law. The nonbelievers' law is reserved for Kaffirs. Several recent legal decisions by non-Muslim judges in Europe have referenced Sharia law as a standard for verdicts concerning Muslims.¹⁴

Muslim movements are never restricted by the host country. Therefore, they can infiltrate all organizations and all levels of politics. Prime examples are France, the Netherlands, England, Germany, and the United States of America.¹⁵ The open democratic societies of the West with their constitutionally-mandated freedoms of speech, religion and assembly have made it possible for Islam to start its insidious overthrow of Western culture.¹⁶

Hijra is rampant in Europe, Canada, and the United States of America. Hijra guarantees the metastasis of the cancer Islam that throughout history has killed, tortured, and enslaved more human beings than any cult or religion together, including two World Wars. The only cure for humanity is the excision of the evil, corrupt, rottenness that Mohammed hallucinated.

JT: HIJRA(H) HAS BEEN SUCCESSFUL BECAUSE WESTERN POLITICAL LEADERS ARE OVERWHELMED WITH THEIR POLITICAL CORRECTNESS AND THEIR BEING TOO DUMB TO UNDERSTAND THE EVILS OF ISLAM. THE ENEMY FROM WITHOUT IS ISLAM! THE ENEMY FROM WITHIN ARE WESTERN POLITICAL LEADERS THEMSELVES.

In the September issue of *The Complete Obama Timeline*, Don Fredrick reports: "Although the Saudis are not taking in any refugees, according to the *Frankfurter Allgemeine*, they have offered to build 200 new mosques in Germany. At FrontPageMag.com Daniel Greenfield writes, 'The only proper way for Europe to reciprocate would be to send a million soccer hooligans to Saudi Arabia and then offer to build facilities to teach them of the importance of trashing the country and abusing any native they come across. Of course the Saudis aren't stupid enough to fall for that one. Not even if the soccer hooligans bring along the occasional woman and child to use as emotional human shields while battering their way into a country they hate in every possible way aside from its social services. Only Westerners are stupid enough to fall for that one. Saudi mosques have played a key role in the rise of Islamic terrorism in the West. Just think of the explosive wonders that something short of a million migrants and all the mosques they can Allah Akbar in will accomplish in Germany. Maybe the next Caliph of the Islamic State will even shout Allah Akbar while beheading some local infidel with a German accent. Maybe that Islamic State will even be in Hamburg. Why is it that so few people ask themselves why the Saudis are willing to build 200 mosques for these 'poor, desperate refugees,'

yet won't take a single one in? It's the same answer to the question of why so many Muslims claim to care about 'Palestinians' to the point of genocide, yet won't take them in and give them citizenship. These aren't refugees. They're armies."

JT: Daniel Greenfield is correct. The situation regarding Muslims caring about Palestinians yet will not give them citizenship or take them in has a simple answer: Arabs/Muslims have always considered what is called Palestine more exact, Israel as being Arab. Palestine is an invented PHANTOM NATION that was conceived to steal the West blind, to pull the West over a barrel, to cause the West to be ripped off. This is exactly what Arafat did and what the so-called Palestinians and Arabs are still doing.
