No matter how high the pile of bodies in the cause of Allah, Obama sees no Islam, hears no Islam, speaks no Islam. Obama’s cold-blooded comedy in Paris is a step too far. Climate change is an industry started when I was just a kid. Then it was called ecology. The modern equal to the emperor’s new clothes. It has made the left rich and enabled the government to control more and more of our lives. But to use this fairy tale to duck real life and death issues is malevolent. Fact is, the climate changes. It has for millions of years, with or without man. The idea that it is man’s fault is the height of hubris. ISIS doesn’t give a fig about the weather. Islamic State Memo:

The following songs have been approved by Islamic State.

WARNING: Please keep in mind that you are not allowed to enjoy listening to these songs.

1. "The Great Allah Has Decided That I Am Unworthy Due to My Questionable Attire"
2. "Muhammad, the Great Prophet, Has Given Us Great Instruction on Proper Bomb Making"
3. "Allah, Great and Wise One, I Am Not Complaining that The 72 Virgins Promised To Me Are Not the Beautiful Females I was Hoping For but Rather the Mangled Corpses of the People I Killed"

4. "Allah, Who Loves Us So Much He Is Willing to Command Us to Die, Has Commanded Us To Die in Order to Show Us How Much He Loves Us"
5. "Our Children, Our Future, Our Body Shields"
6. "Praise Be Allah, Who Has Given Us Women to Rape and Beat and Children to Die In Glorious Suicide Bombing Missions"

If you are aware of other such worthy songs, please list them and Islamic State will consider adding them to our list.

Melvin also notes: **PLEASE ARRIVE AT LEAST 30 MINUTES PRIOR TO YOUR BEHEADING!!**

In San Bernardino, California two or three gunmen attack a social services facility in San Bernadino, California. They kill 14 and injure 21. Two are identified as Syed Rizwan Farook, 28, and his wife, Tashfeen Malik, 27. A third person has been arrested but not identified.

JT: Why did this tragedy happen? I think the solution is quite simple. It was workplace violence.

JT: Quote of the day: *The mass killing in San Bernadino, California is "a wonderful moment to really make significant change."* – Attorney General Loretta Lynch. (Most likely to institute Sharia Law in the USA!)

[\(http://www.theamericanmirror.com/ag-lynch-attack-is-wonderful-moment-to-make-significant-change/\)](http://www.theamericanmirror.com/ag-lynch-attack-is-wonderful-moment-to-make-significant-change/)

Don Fredrick in December Issue of *The Complete Obama Timeline* reports: "Defense Secretary Ashton Carter announces that the military will open combat positions to women. He says, 'There will be no exemptions. To succeed in our mission of national defense, we cannot afford to cut ourselves off from half the country's talents and skills. We have to take full advantage of every individual who can meet our standards.' "

JT: This decision could be quite positive. The more Muslim fighters the female soldiers kill, the less Muslim fighters will go to Jannah. Muslims who are killed by females cannot go to paradise. Why? Muhammad said so!

The Myth of the Climate Change '97%'

What is the origin of the false belief—constantly repeated—that almost all scientists agree about global warming?

JT: The 97% is not only a myth, It's a lie! If John Kerry and Barack Hussein Obama believe the 97%, then the 97 % has to be a lie.

JT: I have never quoted veteranstoday.com and have never referred to it. However, I'll make an exception because this article appears very credible.

Here's more on climate change:

<http://www.climatedepot.com/2015/08/06/a-new-record-pause-length-no-global-warming-for-18-years-7-months-temperature-standstill-extends-to-233-months/>

<http://www.climatedepot.com/2015/11/29/skeptical-climate-documentary-set-to-rock-un-climate-summit-film-to-have-red-carpet-premiere-in-paris/>

RSS satellite measuring shows no world-wide global warming for the last 18 years:

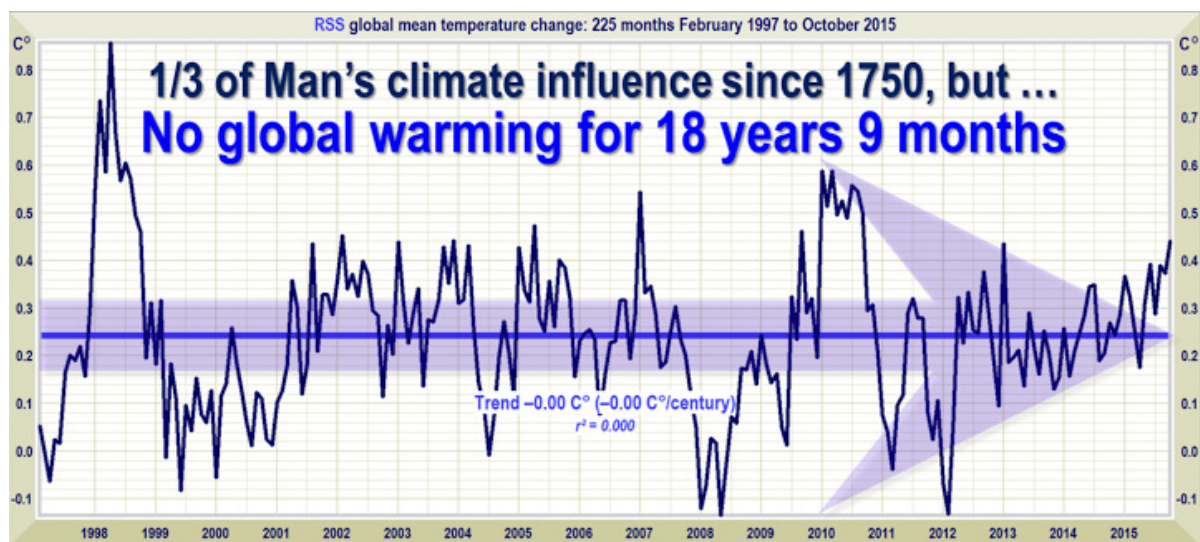

Figure 1. The least-squares linear-regression trend on the RSS satellite monthly global mean surface temperature anomaly dataset shows no global warming for 18 years 7 months since January 1997.

The hiatus period of 18 years 7 months is the farthest back one can go in the RSS satellite temperature record and still show a sub-zero trend. The start date is not cherry-picked: it is calculated. And the graph does not mean there is no such thing as global warming. Going back further shows a small warming rate.

The Pause has now drawn blood. In the run-up to the world-government “climate” conference in Paris this December, the failure of the world to warm at all for well over half the satellite record has provoked the climate extremists to resort to desperate measures to try to do away with the Pause.

Also ...

The Argo system of ocean buoys temperature measuring show 1 degree Celsius temperature rise per every 430 years for ocean depths below 750 meters. First there was Tom Karl with

his paper attempting to wipe out the Pause by arbitrarily adding a hefty increase to all the ocean temperature measurements made by the 3600 automated ARGO bathythermograph buoys circulating in the oceans. Hey presto! All three of the longest-standing terrestrial temperature datasets – GISS, HadCRUT4 and NCDC – were duly adjusted, yet again, to show more global warming than has really occurred. However, the measured and recorded facts are these. In the 11 full years April 2004 to March 2015, for which the ARGO system has been providing reasonably-calibrated though inevitably ill-resolved data (each buoy has to represent 200,000 km³ of ocean temperature with only three readings a month), there has been no warming at all in the upper 750 m, and only a little below that, so that the trend over the period of operation shows a warming equivalent to just 1 C° every 430 years.

Obama says the international climate change agreement is a “turning point for the world. ...In short, this agreement will mean less of pollution that threatens our planet. Full implementation of this agreement and will pave the way for more progress in stages over the years. It sends a powerful signal: a low carbon future, in clean energy at a scale we have never seen before.”

(<http://newyork.cbslocal.com/2015/12/12/obama-climate-agreement/>)

Don Fredrick in the December 2015 issue of *The Complete Obama Timeline* points out that, "In addition, the agreement is non-binding—which means it is next to useless."

JT: Of course, this gives all of the energy producing countries, particularly the Islamic ones, the loophole.

Furthermore, the conference in Paris apparently did not take some facts into consideration. For example:

- <https://www.youtube.com/watch?v=dMfFVg66Ors>. (Lord Christopher Monckton on climate change corruption!)
- <https://www.youtube.com/watch?v=RkdbSxyXftc&feature=youtu.be>. Patrick Moore co-founder of Green Peace denounce AGW
- <https://www.youtube.com/watch?v=BpBnJq19R60>. A supportive video!
- https://www.youtube.com/watch?v=TCy_UOjEir0. Another truth teller.

At least two avid readers (HS and B) of *Just Thinking* have communicated the following:

- HS: "Climate weapons are being used to cause climate events that are promoted by lying media. **There is no evidence that AGW (Anthropogenic Global Warming) is caused by CO2. Period.** Sheeple are conditioned to believe in AGW because they see corporate pollution everywhere and wrongly link CO2 policy as a way to stop chemical destruction. In fact, corporations will continue to destroy the environment long after you have been paying carbon taxes for years **EPAC**

Report on Chemtrails and Aerosol Climate Engineering
<https://youtu.be/2ZYdrewRHog>."

- B: Apart from what I've said ... regarding my standpoint that the observed climate fluctuations, I'd like to repeat for the sake of clarity that you're partly right about AGW since the intentional "man made" release of aerosols/chemtrails from military tankers and commercial airliners the last 20 years have likely caused a certain, but so far fairly small rise of measured global temperature. Moreover, these aerosol dumps of above along with (HAARP like) huge antenna facilities for inducing directed electromagnetic fields in the atmosphere in order to control/steer/"owe the weather" in terms of artificial droughts, intense rainfalls as well as hurricanes, have also contributed to an observed heightened frequency of such weather phenomena (locally)."
- HS: It's impossible to be sure of anything when even your best climatologists fails to consider and calculate the ongoing aerosol covert climate manipulation that is very likely warming the climate and manipulating the jet streams. Even your most respected authority is easily demonstrated to be wrong about blaming even a tiny bit on AGW when they fail to discuss the past 30 years of climate engineering.
- B: When it comes to Nobel Prize laureates and AGW, the only two big liars & unworthy recipients I can think of right now are Al Gore & Obongo. Ivar Gjåver (Gjæver) is a very sound physicist, far more trustworthy & judicious than his compatriots in the Norwegian Nobel committee consisting of bought-&paid-for-political-correct-politicians! With the cold & dark winter period ahead I wish we at least had the same considerably warmer climate here like the Vikings had when they grew wine grapes in Greenland. (The dark evenings at home could anyway be satisfactory dealt with by lighting up with cozy candles & good music.....) Last but not least, I believe we have entered into a colder interglacial period with declining temperatures which the PTB now and coming years desperately must try to cover up for by increased chemtrailing/aerosol dumping in the atmosphere to counteract the cooling!
- HS: There is no evidence that anyone is "partly right" about AGW. You (believers in AGW) are being mind-washed by environmental sentiment. Stick to the real facts of real pollution like Fukushima or you will perpetually miss the point.
- B: Climate change deniers have been lied to big times! However, when it comes to AGW, due to ongoing "geoengineering" (shows) that the release of chemtrails (or call it "geoengineering") in the troposphere from military tankers or commercial airliners tend to increase the temperature on earth and in the oceans to make the IPCC fraudulent statement AGW from CO2 release is true! Only if the chemtrails had been released higher up in the stratosphere, **15km up to 60km above sea**

level , (where normal military tankers & commercial airliners can't fly) you could expect a "cooling" effect on earth at sea level!

JT: Of course, and the world will believe it!

A ship captain one day recorded in the ship's log, "First-mate drunk today." It was a true statement, but was the first incident where the mate had been drunk while on duty. The mate pleaded with the captain to amend the statement, but the captain refused, saying it was a true statement. The next time the First-mate was in charge of the ship, he recorded in the log, "Captain sober today."

<https://bible.org/illustration/captain-sober-today> (Tack B)

Applying this to Barack Hussein Obama, we can say: Barack Hussein Obama recorded in his diary that Michelle had over-eaten her diet of 14 cheeseburgers during lunch. She pleaded with him not to make this "news" available to the press. But it was true, and we all know Obama never lies. She pleaded with him to amend the statement, but Barry said NO, because it was a true statement. "Well", she said, "Everybody knows you're a liar." During her next press conference Michelle said that Barry was to give some news about her dietary lunch meals. She also said. "We all know Barry always tells the truth."

(Well, the application works, but whether or not Barry and Michelle tell the truth is irrelevant!)

JT: Evidently, democratic freedom fighters come in all disguises.

We are herewith informed by <http://www.reuters.com/article/us-california-shooting-muslims-idUSKBN0TM2OI20151204> that “Muslim Americans fear their religion will be demonized and Islamophobia will spread after a young Muslim couple was accused of carrying out one of the bloodiest mass killings in the United States.

JT: I think it's about time that Muslims realize the truth that Islam is not a religion but a political cult. And ... have I got news for them: Islam was demonized at its inception. Muhammad claimed that he communicated with a demon devil disguised as Gabriel. The Muslim Gabriel in the Koran teaches the doctrine of demons. In fact, Muhammad once said that the angel Gabriel was one of the major enemies of the Jews. (Sahih Bukari, vol. 5, book 55, number 546, book 58, number 275, volume 6, book 60, number 7.)

JT: Do you want to read some Muslim BS? Here it is:

“Let’s not forget that some of our own foreign policy, as Americans, as the west, have fueled that extremism.” U.S. support for repressive regimes, says Ayloush, “push people over to the edge. SYRIAN CONFLICT EXPLAINED

Source: <http://www.702.co.za/articles/6301/syria-situation-explained>. (Danke JO)

President Assad (who is bad) is a nasty guy who got so nasty his people rebelled and the Rebels (who are good) started winning. But then some of the rebels turned a bit nasty and are now called Islamic State (who are definitely bad) and some continued to support democracy (who are still good).

So the Americans (who are good) started bombing Islamic State (who are bad) and giving arms to the Syrian Rebels (who are good) so they could fight Assad (who is still bad) which was good.

By the way, there is a breakaway state in the north run by the Kurds who want to fight IS (which is a good thing) but the Turkish authorities think they are bad, so we have to say they are bad while secretly thinking they're good and giving them guns to fight IS (which is good) but that is another matter.

Getting back to Syria. President Putin (bad, as he invaded Crimea and the Ukraine and killed lots of folks including that nice Russian man in London with polonium) has decided to back Assad (who is still bad) by attacking IS (who are also bad) which is sort of a good thing? But Putin (still bad) thinks the Syrian Rebels (who are good) are also bad, and so he bombs them too, much to the annoyance of the Americans (who are good) who are busy backing and arming the rebels (who are also good).

Now Iran (who used to be bad, but now they have agreed not to build any nuclear weapons and bomb Israel are now good) are going to provide ground troops to support Assad (still bad) as are the Russians (bad) who now have ground troops and aircraft in Syria.

So, a Coalition of Assad (still bad) Putin (extra bad) and the Iranians (good, but in a bad sort of way) are going to attack IS (who are bad) which is a good thing, but also the Syrian Rebels (who are good) which is bad.

Now, the British (obviously good, except Corbyn who is probably bad) and the Americans (also good) cannot attack Assad (still bad) for fear of upsetting Putin (bad) and Iran (good / bad) and now they have to accept that Assad might not be that bad after all compared to IS (who are super bad).

So Assad (bad) is now probably good, being better than IS (no real choice there) and since Putin and Iran are also fighting IS that may now make them good. America (still good) will find it hard to arm a group of rebels being attacked by the Russians for fear of upsetting Mr Putin (now good) and that mad ayatollah in Iran (also good) and so they may be forced to say that the Rebels are now bad, or at the very least abandon them to their fate. This will lead most of them to flee to Turkey and on to Europe or join IS (still the only constantly bad group).

To Sunni Muslims, an attack by Shia Muslims (Assad and Iran) backed by Russians will be seen as something of a Holy War, and the ranks of IS will now be seen by the Sunnis as the only Jihadis fighting in the Holy War and hence many Muslims will now see IS as good (doh!).

Sunni Muslims will also see the lack of action by Britain and America in support of their Sunni rebel brothers as something of a betrayal (might have a point) and hence we will be seen as bad.

So now we have America (now bad) and Britain (also bad) providing limited support to Sunni Rebels (bad) many of whom are looking to IS (good / bad) for support against Assad (now good) who, along with Iran (also good) and Putin (also, now, unbelievably, good) are attempting to retake the country Assad used to run before all this started?

JT: Naturally Barack Hussein Obama has no responsibility for this situation because he's peaceful and tolerant. Above all, he's a Nobel Peace Prize Winner!!!

The Muslim Brotherhood network includes the Muslim Students Association, World Assembly of Muslim Youth, Islamic Society of North America, Muslim Youth of North America, American Muslim Council, International Institute for Islamic Thought, Muslim American Society, North American Islamic Trust, Global Relief Foundation, Mosque Foundation, Islamic Circle of North America, United Association for Studies Research, Islamic African Relief Agency, Council on American-Islamic Relations, SAAR Network, ANSWER Coalition, Holy Land Foundation, al-Qaeda, Hamas, and Palestine Islamic Jihad. In addition, many mosques on the United States preach violent jihad and are funded by Saudi Arabia. The amount of radical indoctrination is enormous, and it takes place under the cover of “religious freedom.”

JT: One organization isn't listed: The Barack Hussein Obama Regime!

JT: On December 6, 2015 Barack Hussein Obama, the POS occupant of the Oval Office gave a speech against terrorism (?) in the aftermath of the San Bernardino jihad slaughter on December 2, 2015.

The quintessence of the speech: America is such a bad country because it doesn't outlaw guns. Don't say anything bad about Islam and Muslims! Islam and Muslims are peaceful and tolerant!

My take: It was a waste of valuable oxygen, but I guess that's what a POS does – waste oxygen!

ISLAM IS PEACEFUL AND TOLERANT!

JT: <http://moonbattery.com/?p=66041>. Nelson Mandela was also peaceful and tolerant!

JT: Spontaneous suggestion: Place Barry and Michelle and their rogues on the government's official NO FLY LIST! After all, isn't that what is supposed to be done for terrorists and traitors?

Don Fredrick in the December issue of *The Complete Obama Timeline* reports that among the visa questions asked to vet those peaceful and tolerant persons coming to the United States of America are:

“Do you seek to engage in terrorist activities while in the United States or have you ever engaged in terrorist activities?”

“Are you a member or representative of a terrorist organization?”

“Have you ever or do you intend to provide financial assistance or other support to terrorists or terrorist organizations?”

JT: No that I know such searching, investigative questions are being asked, I feel so safe!!!

At <http://www.nbcnews.com/storyline/san-bernardino-shooting/san-bernardino-shooters-planned-attack-least-year-advance-n476521> we read that “San Bernardino terror couple Syed Rizwan Farook and Tashfeen Malik spent at least a year preparing for their terror attack, NBC News has learned, practicing at a local gun range and making financial plans for their family after their deaths. And the husband may have discussed an attack as many as three years ago, law enforcement sources said Tuesday. ... Reuters reported that the loan to Farook was made by the online lender Prosper. ...[A] senior law enforcement official told NBC News Tuesday that FBI investigators have been told that Farook discussed staging an attack in California as early as 2012. ...[F]ederal investigators are interviewing a neighbor of Farook and Malik who bought two of the four guns that were used in the massacre. That man, Enrique Marquez—who NBC News has learned is an in-law of Farook—had converted to Islam about three or four years ago, according to the son of the imam at the Islamic Center of Riverside. Marquez, along with Farook and Malik, attended the mosque, officials have said. In 2014, records show, Marquez married a woman named Mariya Chernykh—the sister of Tatiana Farook, who is married to Syed Rizwan Farook’s brother, Syed Raheel Farook.”

JT: I think it's conclusive to say that this peaceful and tolerant Islamic family is a den of Islamic rats. I wonder how many others are ratting around in the United States of America, including Barack Hussein Obama?

JT: Greeting a dictator!

At NationalReview.com (<http://www.nationalreview.com/corner/427262/refugee-religious-test-shameful-and-not-american-except-federal-law-requires-it-andrew>)

former prosecutor Andrew C. McCarthy has noted, "Under federal law, the executive branch is expressly required to take religion into account in determining who is granted asylum. Under the provision governing asylum (section 1158 of Title 8, U.S. Code), an alien applying for admission 'must establish that ...religion [among other things] ...was or will be at least one central reason for persecuting the applicant.' Moreover, to qualify for asylum in the United States, the applicant must be a 'refugee' as defined by federal law. That definition (set forth in Section 1101(a)(42)(A) of Title

8, U.S. Code) also requires the executive branch to take account of the alien's religion: 'The term 'refugee' means (A) any person who is outside any country of such person's nationality ...and who is unable or unwilling to return to ...that country because of persecution or a well-founded fear of persecution on account of ...religion [among other things]...' The law requires a 'religious test.' And the reason for that is obvious. Asylum law is not a reflection of the incumbent president's personal (and rather eccentric) sense of compassion. Asylum is a discretionary national act of compassion that is directed, by law not whim, to address persecution."

JT: That's the law progressives and Barack Hussein Obama!
